SOCIAL STUDIES | GRADES 3 TO 5 | STUDENT PACKET

Map Skills

Compass rose, grid coordinates, scale, and landforms on a town map

IN THIS PACKET YOU WILL LEARN TO

- ✓ Name the parts of a map
- ✓ Use cardinal and intermediate directions
- ✓ Find a place with a grid coordinate
- ✓ Use a scale to find a distance

Name _____

Teacher _____

Class _____

INSIDE THIS PACKET

2 Parts of a Map
3 Map of Brookside
4 Use the Grid and the Compass
5 Directions Practice
6 Scale and Distance
7 Sort Land and Water
8 Match the Term to the Meaning
9 Grid Riddle
10 Plan a Route
11 Find the Mistake
12 Draw a Map of Your Own
13 Mixed Review
14 Exit Tickets
15 How Did I Do?

Parts of a Map

LEARN

Read this page with your teacher, then look at the town map on the next learn page.

WORDS TO KNOW

title	The name of the map, such as Map of Brookside.
key	A box that tells what the symbols on the map stand for.
compass rose	A drawing that shows north, south, east, and west.
scale	A line that tells how much real distance one unit on the map stands for.
grid	Lettered columns and numbered rows that help you name a square.

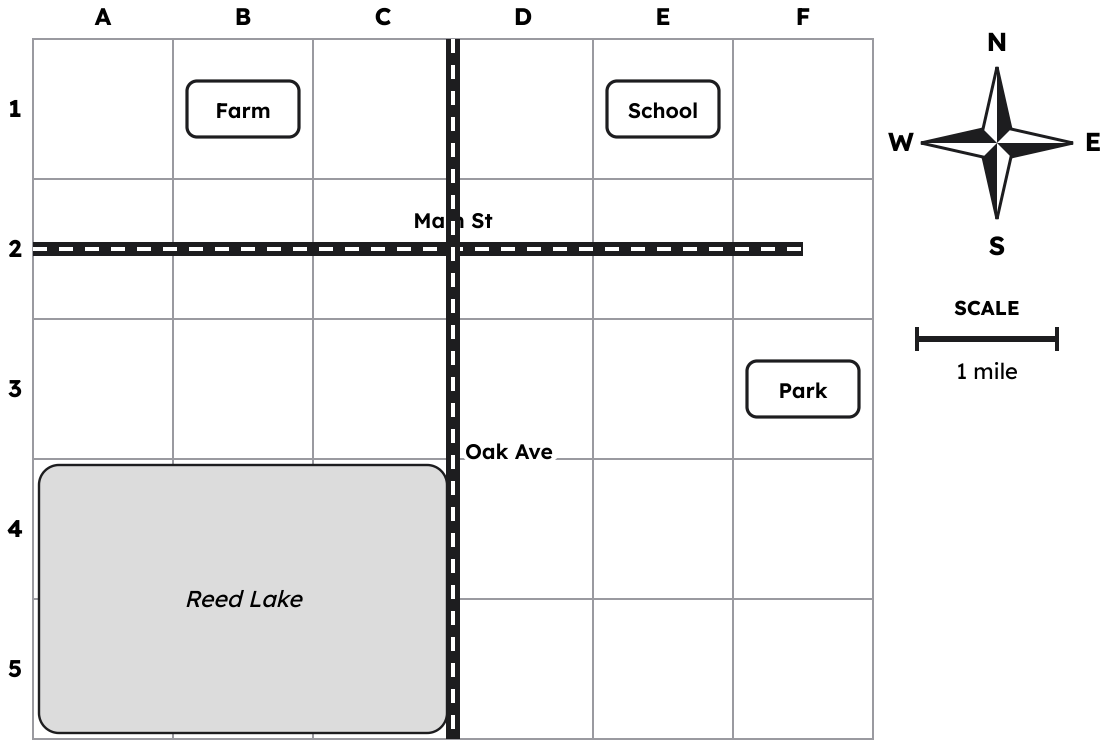

CARDINAL DIRECTIONS

North, south, east, and west are the cardinal directions. Northeast, northwest, southeast, and southwest are the intermediate directions.

Map of Brookside

LEARN

This map shows Brookside, so use the compass rose and the grid letters and numbers as you read the labels.

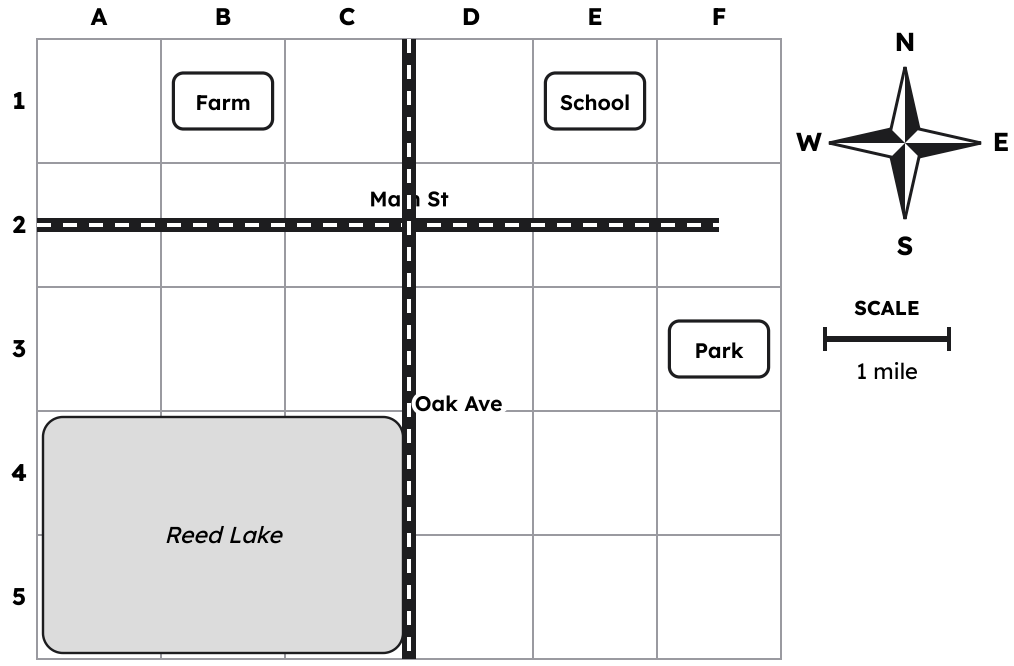

1. The school is in square _____

2. Reed Lake is in the _____ part of town.

Use the Grid and the Compass

GUIDED PRACTICE

Look back at the map of Brookside if you need it, or use the copy on this page. Write the square or the direction.

1. The park is in square _____

2. The farm is in square _____

3. From the school, the park is to the _____

4. From the farm, the school is to the _____

Directions Practice

PRACTICE ★

Use the words north, south, east, west, northeast, northwest, southeast, and southwest.

Standing in the center of Brookside

If you walk toward	You are going
the school	_____
Reed Lake	_____
the park	_____
the farm	_____

1. A friend stands at the park and walks west on Main Street. Which place will the friend pass first_____ ☐

Scale and Distance

PRACTICE ★★

On the Brookside map, each square is 1 mile on a side. Count the squares between two places, then write the distance.

1. About how many miles is it from the farm (B1) to the school (E1) along the top row _____ ☐

2. About how many miles is it from the school (E1) to the park (F3)_____ ☐

3. A hiker walks from the farm to Reed Lake by going south two squares. About how many miles is that walk_____ ☐

4. Why does a map need a scale? Answer in a complete sentence.

_____

_____

_____

Sort Land and Water

CUT AND PASTE

Cut out the twelve cards. Glue each word under Landform or Body of water.

Landform	Body of water

✂

bay	plain	hill	valley
gulf	canyon	ocean	lake
peninsula	island	stream	river

Match the Term to the Meaning

MATCH

Read each term on the left. Find the meaning on the right and write the letter on the line.

TERM		MEANING
1. compass rose	_____	**A** a line that tells real distance
2. scale	_____	**B** lines that run north to south and measure distance from the prime meridian
3. key	_____	**C** the line of latitude at 0 degrees
4. grid	_____	**D** the line of longitude at 0 degrees
5. latitude	_____	**E** lines that run east to west and measure distance from the equator
6. longitude	_____	**F** a box that explains the symbols
7. equator	_____	**G** lettered columns and numbered rows
8. prime meridian	_____	**H** a drawing that shows north, south, east, and west

Grid Riddle

RIDDLE

Write the word that fits each clue. The first letters, in order, answer the riddle.

Which way do you walk from the farm to the school in Brookside?

____ ____ ____ ____
1 2 3 4

CODE TABLE

Avenue	East	North	Park	Southwest	Town
A	E	N	P	S	T

1. From the farm, the school is to the _____
2. Oak _____ is the north-south street.
3. From the school, Reed Lake is mostly to the _____
4. Brookside is a small _____

Plan a Route

APPLY

Plan a walk from the farm to the park. Write the directions a friend could follow, and estimate the miles.

1. Write step-by-step directions from the farm to the park. Use street names and cardinal directions.

2. About how many miles is your route, and how did you use the scale?

Find the Mistake

ERROR ANALYSIS ★★

Each box shows a student's note about Brookside. Tell what is mixed up, then write the note the right way.

Eli's note

The school is west of the farm.

1. What is mixed up in Eli's note, and what is the right direction?

2. Write a correct sentence about the school and the farm.

YOUR WORK

Nia's note

Each square is 10 miles, so the farm is 30 miles from the school.

3. What is mixed up in Nia's scale, and what is a better estimate?

4. Write a correct sentence about that distance.

YOUR WORK

Draw a Map of Your Own

WRITE ABOUT IT

Draw a small town of your own. Include a title, a compass rose, a key, a scale, and at least four labeled places.

YOUR TOWN MAP

1. Write the scale you used, and name one place that sits north of another place.

Mixed Review

REVIEW

Answer each question in a complete sentence or with a square name.

1. A compass rose shows _____

2. Lines of latitude run _____

3. The school in Brookside is in square _____

4. The park is in square _____

5. Why does a map need a key?

Exit Tickets

CHECK

Your teacher will cut this page on the dotted line so each student gets one ticket, and then the student answers both questions.

Map Skills Exit Ticket

Name _____

1. The school in Brookside is in square _____

2. If you stand at the farm and walk toward the school, which direction are you walking?

_____

_____

Map Skills Exit Ticket

Name _____

1. The school in Brookside is in square _____

2. If you stand at the farm and walk toward the school, which direction are you walking?

_____

How Did I Do?

SELF-CHECK

Read each skill and put a check in the box that fits you best. Then answer the two questions at the bottom of the page.

Skill	I can do this on my own.	I can do this with a little help.	I am still learning this.
I can name the parts of a map.	☐	☐	☐
I can use cardinal and intermediate directions.	☐	☐	☐
I can find a place with a grid coordinate.	☐	☐	☐
I can use a scale to find a distance.	☐	☐	☐
I can draw a map with a title, a key, a compass rose, and a scale.	☐	☐	☐

1. Which skill do you want to practice more, and why?

2. Which part of a map helps you the most when you are lost, and why?
